MOUNTED THERETO VIA ELASTIC :  
MEMBER :

**AMENDMENT**

Assistant Commissioner for Patents  
Washington, DC 20231

SIR:

Responsive to the Official Action dated December 9, 2002, please amend the above-identified application as follows:

**IN THE CLAIMS:**

Please replace claims 2 and 22 with the following amended claims:

- 1        2. (Amended) A device comprising:
  - 2            (a) a motor having a frame of which surface is conductive and a motor terminal in a leaf spring shape;
  - 3            (b) a feeding terminal for powering said motor and disposed at a place facing the motor terminal;
  - 4            (c) a grounding terminal disposed at a place facing the frame;
  - 5            (d) a first elastic member made of insulating resin and disposed for urging the motor terminal to said feeding terminal; and
  - 6            (e) a second elastic member made of conductive resin and disposed between the frame and said grounding terminal.
- 7        22. (Amended) A motor comprising:
  - 8            a frame of which surface is conductive; and
  - 9            a motor terminal in a leaf spring shape,
